Sac lac: saccharum lactose | (O): Organic | * In this (30C) kit Arnica is 200C | ** Sizes rounded up or down to nearest inch.

Deciding Factors!

Remedies last many years. The inactive ingredients degrade over time i.e. become discolored but the active ingredients still work fine.

How much can you afford?	Have you had much experience?	Want to do more?	Got support?	Like to travel light?
Money Money Money! Our kits range from \$55 to \$399. Get the biggest kit you can afford and you will (nearly) always have the remedy you need at hand. Or start small and see how you go!	Confidence grows! Start with a small kit—and build up to a larger one once you get the hang of using them. Your successes will fuel your desire to learn more and do more!	Hands on experience There's nothing quite like the knowledge gained from treating injuries and acute complaints yourself.	Support is key A facebook or study group, a homeopath who supports home prescribers, an online course etc.	Kits for small spaces If you are a hiker or parent for example you'll want a kit you can tuck into a purse or backpack or the glove compartment of your car.

Replacement Remedies

Replacements are available for all kits including HomeoCard Kits!
